

## 2013 Alumni Employment Outcomes

(Launched March 2014)

The information shared is self-reported data collected between March 2014 and June 2014 via a survey e-mailed to 1,144 alumni of The Chicago School of Professional Psychology (TCSP). All data shared are based on survey respondents who graduated from any TCSP campus (unless otherwise indicated) during the 2013 academic year only. The data below is derived from the responses received from March through June 2014, as shown in the response rates below.

This information is intended to serve as a sample of the types of positions and employers in which graduates of the program work. It in no way guarantees that future graduates will secure employment with the employer or in the job titles listed. In particular, it is important to note that some job titles require state-specific licensure. When considering enrollment in a particular program offered by The Chicago School of Professional Psychology, students are expected to be aware of whether their program of interest is licensure eligible and, if so, the licensing requirements in the state in which they intend to work.

### Ed.S.: School Psychology

#### **Sample Employer Names**

- San Marino Unified School District
- Oconomowoc Area School District
- Cooperative Association for Special Education (CASE)

#### **Sample Employment Title**
