

Career Support: *International Students*

TCSPP supports international students and alumni through career counseling, programming, and resource development:

- Career exploration
- Job/internship search
- U.S. résumé and CV review
- In-person & virtual consultation

A variety of events and programs equip international students with supportive resources in support of professional development:

- Employment opportunities & Visa regulations workshops
- International student alumni panel
- U.S. & international tax information
- CPT and OPT guidance
- On-going orientation
- Networking – employer fair, social events

Online job tools: *Exclusive to Students and Alumni*

Interview Stream

This platform allows you to record unlimited practice interviews using webcam technology. A professional interviewer appears on the computer screen and asks questions, and you respond just as in a real interview. Your interview is recorded and may be shared with others for feedback.

Career Beam

Career Beam is a full-service career development portal that provides you with all the resources you need to conduct a job search in pursuit of your career goals. Career Beam allows you to research companies in a chosen geographical area, build a professional CV or resume, and assess your career interests.

Going Global

Going Global allows you to explore careers across the globe or learn more about the employment markets in the U.S. It features information about transnational employment opportunities, international hiring practices, and domestic, city-specific employment. Going Global also includes:

- Country Career Guides
- U.S. City Career Guides
- H-1B Visa Employers
- Key Employer Directory
- CV Builder
- Global Job Board
