Official Course Description

This interdisciplinary course explores how behavioral analysis and related fields in psychology develop applied solutions to complex, challenging, and meaningful social problems within the socio-cultural contexts of China and our own communities. We will analyze behavioral analysis and cross-disciplinary interventions for issues such as inter-cultural communication, public health, adoption, organizational policy, organizational structure, and education of learners with special needs. Students consider inter-professional ethics related to creating meaningful changes through clinical practice, policy-making and community interventions. While in China, students will visit varied communities, meet learners with special needs in schools and talk with educational experts, learn about educational and organizational histories within the culture, explore clinical treatments for individuals with mental health diagnoses, discuss topics with organizational and educational leaders and university students in China, and experience a variety of cultural events.

Institutional Learning Competencies and Outcomes

Institutional Learning Outcomes

Diversity

Graduates will respect the value and dignity of individuals and groups across all cultural contexts, and advocate for inclusion and equity. They will demonstrate intercultural competence in domestic and international contexts with people who have ideas, beliefs, worldviews, experiences, and behaviors that are different from their own.

By the end of this course, students will be able to...

- CLO1: Demonstrate knowledge of the world-view of the local culture within the context of psychology.
 - Describe how community strengths of Chinese culture could contribute to successful development and resolution of socially significant issues.
 - Develop program design and evaluation while preserving communities, individual, and cultural traditions.
- CLO2: Analyze differences between host culture and own culture.
 - Describe how community concerns and culture may differ between your community and China.
- CLO3: Examine global perspective in relation to their professional and academic goals.
 - [Specify at least one related Module Learning Outcome: Describe what students will be doing within a specific module or unit to demonstrate their learning towards CLO listed above in an observable and measurable way.]
- CLO4: Explain personal, professional and academic impact of their experience abroad.

- Summarize the most important or transformative personal, professional and academic impact of their experience abroad.

Professional Behavior

Graduates will be able to demonstrate by their values, beliefs and behaviors adherence to the highest ethical and professional standards in their personal and professional lives.

By the end of this course, students will be able to...

- CLO5: Recognize value of interacting with individuals with backgrounds and/or perspectives different from their own.
 - Describe how you anticipate your professional perspective will change after your international experience.
- CLO6: Demonstrate ability to tolerate ambiguity in complicated environments where clear cut answers or standard operating procedures are absent.
 - Prepares in advance for most activities; actively listens for most of program; contributes some knowledge to activity; professionally engages with faculty and in-country partners.
- CLO7: Practice responsibility and accountability by making appropriate decisions on behavior and accepting the consequences of their actions.
 - Demonstrates expected professional behavior and comporment for entire duration of program and in all interactions with students, faculty, administrators and all in-country partners.
- CLO8: Demonstrate ability to be self-reliant in non-classroom environment.
 - Punctually and completely attends all required in-country activities without few prompts or reminders.

Professional Practice

Graduates will be able to demonstrate attainment in the areas of competency (as reflected in knowledge, skills and attitudes) required by their area of education and training. Examples include evaluation, intervention, consultation, teaching, and supervision.

By the end of this course, students will be able to...

- CLO9: Demonstrate ethical decision-making processes related to resolving social problems in diverse and complex community environments.
 - Identify characteristics, resources, and barriers in complex community systems in diverse cultures.
 - Identify or select culturally appropriate targets for change, outcomes of service delivery, and behavior change within which are functional within the context of the community.
 - Assess the impact of cultural, social, and economic variables on community-based behavioral intervention.
 - Demonstrate competence with inter-professional collaboration to resolve community issues.

Discussion Forum Scoring Rubric

1. Initial Posts are due by 11:59pm, Wednesday, Central Time.
2. 1 point will be deducted for each day the initial post is late.
3. Posting Replies on Thursday and Friday of the week is a good practice; any later than the Saturday decreases your impact on the discussion.
4. Interaction is key to a rigorous discussion: participation over 3 separate days each week is optimal, as described below.

5. Posting all or the majority of your contribution on last day of the week will result in decreased points due to the fact that you have not been effective in participating in the discussion across the week.

Posting Type	Posting Performance				Points
	Exemplary	Proficient	Developing	Needs Improvement	
Initial Post: Demonstration of Quality Content and Integration of Course Material	The first post for this discussion exhibits a strong statement to answer the main discussion question(s). The student's answer incorporates a concise statement backed by assigned readings from the class or another scholarly source, and it should stimulate further discussion. APA Style is followed. (4 points statement; 2 points sources; 2 points discussion stimulation). 4 points	The first post for this discussion exhibits a statement to answer the main discussion question(s). However, this answer fails to provide evidence in at least one of the following areas: a concise statement, backed by readings from the class or another source, and it should stimulate further discussion. APA Style is followed. 3.5 points	The first post for this discussion exhibits a statement to answer, or partially answer, the main discussion question. However, this answer fails to provide evidence in at least two of the following areas: a concise statement, backed by readings from the class or another source, and it should stimulate further discussion. APA Style is missing an element. 3 points	The first post for this discussion exhibits a statement to answer, or partially answer, the main discussion question. However, this answer fails to provide evidence in two or more of the following areas: a concise statement, backed by readings from the class or another source, and it should stimulate further discussion. APA Style is not followed. 2.5 points or lower	4 Points
Follow-Up Posts: Participation as Member of Learning Community	Each student's feedback to a minimum of three (3) other initial posts exhibit good answers that address the posts, are supported by readings or other facts, and challenge other participants to further explore the topic. 4 points	Each student's feedback to a minimum of two (2) other initial posts exhibit solid answers that address the posts adequately, are supported by readings or other facts, and challenge other participants to further explore the topic. 3.5 points	Each student's feedback to the minimum of two (2) other initial posts exhibit solid answers that may fail to address the posts adequately, are not supported by readings or other facts, or fail to challenge other participants to further explore the topic. In addition, replies were posted late in the week. 3 points	Student did not give feedback to a minimum of two other initial posts, or the feedback constitutes simple agreement or a question that does not show evidence of effort, critical thought or knowledge, or were posted too late in the week to have an impact (after 6pm Central Time on Sundays). 2.5 points or lower	2 Points Each (minimum of two posts)
Response to Feedback Received: Ongoing Participation throughout the week.	Student participates in the discussion forum at least (3) separate days of the week, writes substantial responses to all feedback received on student's initial post, and responds to instructor's feedback to initial post. 2 points	Student participates in the discussion forum at least (3) separate days of the week, responds to all feedback received on student's initial post, and responds to instructor's feedback to initial post. Responses are proficient but not as substantive as the "exemplary" category. 2 points	Student is missing two elements in the areas of: posting in at least (3) separate days of the week, responds to all feedback received on initial post, or response to instructor's feedback to initial post. Responses show attention to feedback received but are not substantive. 2 points	Student does not adequately provide evidence of participating in the discussion forum throughout the week as evidenced by number of days, posting to feedback received on initial post, or response to instructor's feedback to initial post. 2-0 points	2 Points
Max Points - 10	10 points	9 points	8 points	7 points or lower	

Writing Assignment Rubric

Grading Area	Demonstration Level 1 (unacceptable)	Demonstration Level 2 (minimal)	Demonstration Level 3 (expected)	Demonstration Level 4 (advanced)
Required Components	Response excludes essential components and/or does not address the requirements indicated in the instructions. Many parts of the assignment are addressed minimally, inadequately, and/or not at all. 0-1 points	Response is missing some components and/or does not fully meet the requirements indicated in the instructions. Some questions or parts of the assignment are not addressed. 2-3 points	Response includes all components and meets all requirements indicated in the instructions. Each question or part of the assignment is addressed. 3-4 points	Response includes all components and meets or exceeds all requirements indicated in the instructions. Each question or part of the assignment is addressed thoroughly. 5 points
Description of Knowledge Gleaned from Materials	Response demonstrates a lack of reflection on the theories, concepts, and/or strategies presented in assigned course materials. Viewpoints and interpretations are missing, inappropriate, and/or unsupported. 0-3 points	Response demonstrates a minimal reflection on, and personalization of, the theories, concepts, and/or strategies presented in assigned course materials. Viewpoints and interpretations are unsupported or supported with flawed arguments. 4-6 points	Response demonstrates a general reflection on, and personalization of, the theories, concepts, and/or strategies presented in assigned course materials. Viewpoints and interpretations are supported. Appropriate examples are provided, as applicable. 7-10 points	Response demonstrates an in-depth reflection on, and personalization of, the theories, concepts, and/or strategies presented in assigned course materials. Viewpoints and interpretations are insightful and well supported. Clear, detailed examples are provided, as applicable. 10 points
Structure & APA (Title page with header, reference page, double-spaced, 1" margins, consistent 12-point Times New Roman font, 3 pages)	Writing is unclear and disorganized. Thoughts ramble and make little sense. There more than 3 errors per page for APA, spelling, grammar, or syntax errors throughout the writing. 0-1 points	Writing is unclear and/or disorganized. Thoughts are not expressed in a logical manner. There are more than two APA, spelling, grammar, or syntax errors per page of writing. 2-3 points	Writing is mostly clear, concise, and well organized with good sentence/paragraph construction. Thoughts are expressed in a coherent and logical manner. There are no more than one APA, spelling, grammar, or syntax errors per page of writing. 3-4 points	Writing is clear, concise, and well organized with excellent sentence/paragraph construction. Thoughts are expressed in a coherent and logical manner. There are no APA, spelling, grammar, or syntax errors per page of writing. 10 points

Quotes and references from it will be used for your Capstone Project, too.</p> <p>This regularly repeated assignment includes creating a weekly academic “journal” entry. The journal should include notes or reflections for every reading and video in the course, clearly indicated by citation (ex: Smith (2002).)</p> <p>As you read each week, you will create an annotated bibliography, write bulleted notes, create graphical organizers, make mind maps, or reflective responses to each reading in both units of the module as assigned. Responses can include questions or ideas about the readings, ideas for future research, personal or real-world applications, connections to behavior analysis, connections with other classes, or anything else that piques your interest and shows how well you read the materials. The format is completely up to you, as long as you engage with each assigned reading and clearly indicate by author and year.</p> <p>You will be assigned 2-3 partners to whom you email your academic journal each week for a review and comment. You will meet your small group in person to explore your academic journey while in China. You are welcome to talk on the phone or by GoToMeeting during the week, too!</p> <p>The goal is to create a contingency to help you commit to a meaningful academic goal, on time, as well as to help you connect closely with classmates in your social community around meaningful topics.</p> <p>Here are key areas to ponder that will help you with the final project, too:</p> <ul style="list-style-type: none"> • Make cross cultural connections between your culture and China. • Note ideas of how you can apply what you are learning in our greater society. • Carefully consider how the ethics of professional practice impact how we solve problems in complex community systems. • Think critically about the research available. How does it fit with other disciplines? <p>Develop at least 1-page of writing for each module, but you are welcome to write more if it helps you process and learn.</p> <p>Submit your journal entry and evidence of group collaboration here (ex: a copy of emails or log of time spent on calls).</p> <p>Complete no later than Sunday, 11:59pm, CST MLO 1a</p>	<p>Rubric, 20 points</p>

Capstone:

Our small group capstone assignment has two parts. First is to create an action plan to bring about positive changes in complex community settings. Psychology and behavior analysis have a responsibility to better society, as do you as an engaged practitioner. For this small group project, you will assess a community need and propose a potential evidenced-based intervention in either China or your own communities. You will analyze the issue through the lens of behavioral science, and propose a plan to take action. Finally, you will present your plan to the group and reflect on your motivation to take action.

First, identify a community, issue, and existing evidenced-based behavioral interventions for members of the community. Then, develop an idea for **action** in forms such as:

1. A more in-depth behavioral assessment within the community
2. Implement and monitor established, 'proven' interventions to change community behavior
3. Disseminate research-based strategies to community leaders or those in need
4. Increase access of marginalized groups to existing effective services and care
5. Develop trainings or presentations for change agents in the community
6. Engage with policy makers to facilitate a change
7. Create a social media campaign to educate people on a problem and the possible solution
8. Write and share an article or report
9. Create a community group to work on the problem
10. Develop a plan to educate the TCSP community about the issue of interest
11. Develop a research question and plan to investigate the problem further
12. Apply for a grant to secure funds for your idea

13. Plan a service learning project or volunteering experience
14. Develop a special interest group in your professional association
15. Use technology to solve a problem or deliver an intervention or coaching
16. Immerse yourself in a new community to connect with stakeholders and plan a solution together
17. Get creative!

You will find helpful resources at the [KU Community Toolbox](#). Here are some requirements:

The assessment, intervention, training, or dissemination methods you recommend or implement must be fully consistent with your discipline and be feasible. References and sources should be reputable, peer reviewed, and drawn mainly from your primary discipline. Best practice sources such as [Database of Best Practices](#) may be helpful. All activities and plans must align with your ethical and conduct guideline codes and be culturally appropriate.

This is the suggested presentation template and order of slides:

1. Title and group members
2. Identify the community or population of interest
3. Briefly describe the makeup and history of the community (e.g., demographic, historical, cultural, political, economic, etc.)
4. Describe one important issue people in the community care about, the perceived importance and consequences for the community.
5. State 2 methods the group could use to listen to the community to learn more.
6. Describe resources and strengths the community has, and context or situations that might make it easier or more difficult to address this issue
7. Select a priority problem or goal to be addressed. Include key points such as:
 - a. How often does the problem occur (or is the goal attained)?
 - b. How many people are affected?
 - c. How severe (significant) is the effect?
 - d. How important is the problem or goal perceived to be by others?
 - e. How effective are efforts to address it likely to be?
8. Who is affected by the problem or goal?
 - a. What types of people are affected? (e.g., children, parents, neighbors, service providers)
9. When and where did the condition or problem behavior first occur, or when did it become significant?
 - a. Is the problem new or old? Is it increasing or decreasing?
 - b. Where is it prevalent (in what places or groups)? Why?

10. State a positive outcome that would benefit the community (e.g., more youth should graduate from high school; all should be safe in their neighborhoods)
11. Assess the level of the problem or goal. Some types of assessment include:
 - a. Direct observation of the problem or goal
 - b. Conducting behavioral surveys
 - c. Interviewing key people in the community
 - d. Reviewing archival or existing records
 - e. Research
12. Which specific behaviors need to change in what specific people? To address the immediate problem? To change the conditions that contribute to the problem or goal?
13. Which environmental conditions and related behaviors that might contribute to the problem or goal.
 - a. Knowledge and skill
 - b. Experience and custom
 - c. Health
 - d. Support and services
 - e. Access, barriers, and opportunities

The second part of the capstone project include a professionally prepared letter written to the contact person of one of the organizations that we visited. This letter should include:

- One or two interesting issues that were observed during the visitation.
- A description of at least 2 ways members of the organization are successfully addressing the issue
- Generate another 2 meaningful and feasible strategies the members of the organizations, communities or relevant policy makers could consider in their practices, based on the research and your own learning experiences during the course.
 - The recommendations should each be consistent with values, philosophy, and methods of both positive psychology and behavior analysis, with a goal to enhance subjective wellbeing of individuals, families, or communities.
 - At least 2 articles or resources related to the strategies
- A final personal statement from each student that shares an important or transformative personal, professional and academic impact experienced while visiting the organization.
- The students should submit to the instructor a version of the letter that has footnotes with peer-reviewed behavioral science or psychology literature sufficient to support their findings and recommendations.
- Student may also suggest ideas for further collaborations (research and practice) to enhance quality of services for individuals in China.
