

# EDUCATION BEYOND BORDERS

## Migration in Context: Berlin

Creating change agents to foster community impact on a global scale, we anchor our experience in the United Nation's Sustainable Development Goal #10: Reducing Inequalities. Focusing on migration from both a local and global context, this year's Education Beyond Borders project includes a 3-week virtual micro-credential with hands-on experience in each participant's community; culminating with an optional travel experience to Berlin, Germany to apply concepts learned in the program and in their local service project. The program is offered for students and alumni across the colleges and universities of the TCS Education System, and participants will receive a digital badge upon successful completion of their program.

### Program Dates

➔ April 11, 2022 – May 1, 2022

3-week virtual micro-credential with hands-on experience in each participant's community.

➔ May 2, 2022 – May 6, 2022

Capstone assignment and In-country: Berlin, Germany – barring travel restrictions.
