

Alumni Employment Outcomes

Academic Year 2021—2022 Graduates

Introduction

The information presented in this disclosure is intended to function only as a sample of the types of employment in which graduates of The Chicago School work. It in no way guarantees that future graduates will secure employment with either the employers or in the job titles listed. Also, it is important to note that some job titles require state-specific licensure. When considering enrollment in a program offered by The Chicago School, students are expected to be aware of whether their program of interest is eligible for licensure and the licensing requirements in the state in which they plan to work.

Methodology

The Office of Institutional Research (OIR) surveyed The Chicago School alumni who graduated in academic year 2021 – 2022 (AY 21–22)¹ using a web-based questionnaire. Using The Chicago School’s alumni database, OIR identified 1,456 The Chicago School alumni with a valid email address who graduated in AY 21 – 22 from a The Chicago School campus. Contact information for the sample was provided by The Chicago School’s alumni database. The survey was available from 08/07/23 to 09/15/23. The response rate for the survey is 14.8%² (n=216) with a margin of error of ±6.2%.³ To increase response rates, OIR first contacted individuals using an introductory email on 08/07/23 with subsequent reminder emails. The total number of possible contacts attempted by OIR was four.

Please note that this disclosure only includes information from academic programs that had five or more survey responses to the following survey item: *Are you currently employed?*⁴ The results presented in the following disclosure are based on survey responses from AY 21 – 22 graduates responding to this survey whose programs have at least 5 qualified respondents (n=133).

¹ The sample was pulled using TCSPP’s alumni database, Raiser’s Edge and CVue. All individuals within the sample have a conferred graduation date ranging from 09/15/21 to 08/31/22 and a valid email address.

² Response rate and cooperation rate was calculated in guidelines with AAPOR standards.

³ The margin of error for the AY 21 – 22 was calculated using the following formula: $E = \frac{Z_{\alpha/2}}{(2*\sqrt{n})}$, where $Z_{\alpha/2} = 1.96$ and n is the number of respondents who completed the survey (n=216).

⁴ This document relies on self-reported employment survey data for academic programs.

Ed.D. Educational Psychology and Technology

Sample Employer Names

- Bay City Public Schools
- College of San Mateo
- Helianthus Positive Behavior Support
- Huntsville City Schools

Sample Employment Title

- Director of Clinical operations
- Educator
- Faculty Instructional designer
- Science Teacher

Program Response Rate: 26.9%⁵

Respondent Employment Rate: 85.7%

Mode Reported Salary Range(s) \$45,000 to \$54,999; \$55,000 to \$64,999; \$65,000 to \$74,999⁶:

⁵ Of the 27 AY 2021-2022 Graduates from this program, there were 6 respondents.

⁶ The most frequently reported income range. In instances of a tie, multiple ranges may be provided.

M.A. Clinical Mental Health Counseling

Sample Employer Names

- Ellie Mental Health
- Healthy Minds Therapy
- Inspire counseling center
- Leyden Family Services and Mental Health Center
- Mary's Center
- PEMHS
- Rogers behavioral health
- Safe Harbor Behavioral
