

Academic Year 2015—2016 Alumni Employment Outcomes

Introduction

The information presented in this disclosure is intended to function only as a sample of the types employment in which graduates of The Chicago School of Professional Psychology (TCSPP) work. It in no way guarantees that future graduates will secure employment with either the employers or in the job titles listed. Also, it is important to note that some job titles require state-specific licensure. When considering enrollment in a particular program offered by TCSPP, students are expected to be aware of whether their program of interest is licensure eligible and, if so, the licensing requirements in the state in which they plan to work.

Methodology

The Office of Institutional Research (OIR) surveyed TCSPP alumni who graduated in academic year 2015 – 2016 (AY 15 – 16)¹ using a web-based questionnaire. The questionnaire contained a total of 117 survey items that were in the form of multiple choice questions, Likert response scales, and open-ended questions.

Using TCSPP's alumni database, OIR identified 1,069 TCSPP alumni who graduated in AY 15 – 16 from a TCSPP campus. Contact information for the sample was provided by TCSPP's alumni database. The survey was launched on July 17, 2017 and closed on August 13, 2017. The overall response rate for the survey is 24.2 percent with a margin of error of ±6.1 percent.²

In order to increase response rates, OIR first contacted individuals using an introductory email on July 17, 2017 with subsequent reminder emails. The total number of possible contacts attempted by OIR was five. Additionally, three survey respondents were randomly selected to win their choice of a \$100 gift card or a \$100 contribution toward a professional membership of their choice.

The results presented in the following disclosure are based on survey responses from 259 AY 15 – 16 survey respondents. Please note that this disclosure only includes information from academic programs that have five or more survey responses.³

¹ The sample was pulled using TCSPP's alumni database, Raiser's Edge. All individuals within the sample have a conferred graduation date ranging from September 1, 2015 to August 31, 2016.

² Response rate and cooperation rate was calculated in guidelines with AAPOR standards. The margin of error was calculated using the following formula: $E = \frac{Z_{\alpha/2}}{(2*\sqrt{n})}$, where $Z_{\alpha/2} = 1.96$ and n is the number of respondents who completed the survey, 259.
